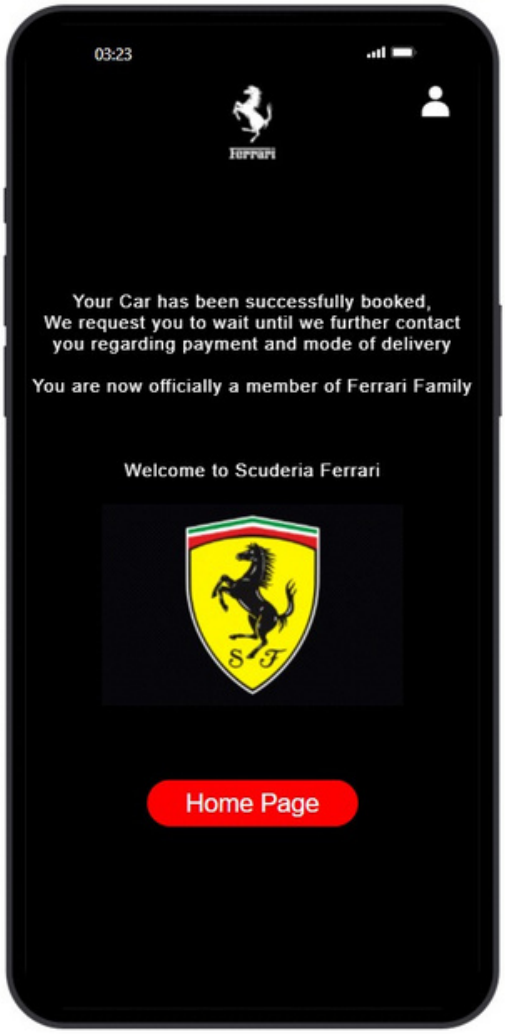
Purpose: Finalconfirmationafter booking

- **Confirmation Message**
  - Providesfeedback of successful action
- **Brand Logo**
  - Reinforcestrust

- **Home Page Button**
  - Allowsnavigation back to start



Overall Usability Result

The prototype demonstrates:

- Familiar navigation (buttons, back arrow, loginfields) → quick understanding
- Repeatedlayout → improved learnability
- CTA-based navigation → minimal confusion

- Branding elements → trust and clarity

Conclusion:

Users complete tasks efficiently because recognition-based UI reduces cognitive load compared to unfamiliar navigation patterns.
